

Eagle Scout Service Project

The primary purpose of an Eagle project is to see if you can take what you have learned on your way from the Scout rank to the Life rank, and put it into practice to help others.

Your write-up should follow the outline, (either the 9 step process or the new PDF format) and be detailed enough so that when the Board reads your write-up; we know what you are doing. Or, write your write-up as if you were writing it up for someone else to do for you.

Put the hard copy into a folder or binder of some kind, so there are not any loose pages. Pictures of your project would also be a great help. Before, during, and after.
